

HUGHESVILLE BAPTIST CHURCH

Rev. Keith Corrick

Pastor

1 March 2006

Mr. Tom Wilder
Nelson White Systems, Inc.
8725-A Loch Raven Boulevard
Baltimore, MD 21286-2227

Dear Mr. Wilder,

A note of appreciation for the efforts of five (5) of your company's individuals in designing, installing and grooming the audio visual system in the new sanctuary at Hughesville Baptist Church. This is the second installation you have performed for us and it was every bit as successful as the first.

We sincerely appreciated Nelson White Systems responsiveness, flexibility to make changes and flexibility of installation schedule. We were treated courteously and professionally. The quality of the installation is outstanding and we look forward to many years of system use.

I am sure there are many people who contributed to this project, but there are 5 I coordinated with the most. I would like to express my thanks to the following:

-Mr. John Nagel for being the primary point of contact who answered all of the early on questions and helped us arrive at the system to meet our needs. He also spent the first Sunday in the sound booth to make sure everything went as planned.

-Mr. Bill Seamans who designed the system and made suggestions to improve the system. Bill also was instrumental in grooming the system and spent an entire Saturday training our folks in the use of the system with particular emphasis on the soundboard. He also sat in with John that first Sunday.

-Mr. Andrew Antonakos who was the project engineer and coordinated and ran the day-to-day installation. As with all installations things don't go perfectly, yet Andrew worked though all of the details, coordinated with all involved and made the installation happen.

-Larry Goforth did the bulk of the installation. What a trooper. He worked long hours. Sometimes there was contention with other skills on the job site, but Larry never let it get to him and got the job done.

-Mike Flaherty came out to the site I believe on 2 occasions to provide software updates and to make some other changes. One visit sticks in my mind. It was 7 o'clock p.m. He had a Birthday Party commitment (his), but he did not leave until the system was working correctly. He even had to call Bill Seamans that night to get a piece of information.

What was amazing is that Bill was available to give him the information and Mike used the information and got the job done.

You should be proud of the professionalism of these 5 men. They definitely are assets to the company who project a positive, can-do attitude. My best wishes to each of them and the company in future endeavors. I will be more than happy to recommend Nelson White System, Inc. as a first class company in the audiovisual system design and installation world.

Sincerely,

John McNulty, Chairman
Trustees
